## **WHAT IS THE EVENT ABOUT?**

This summer, UTACCEL is organizing Contest for Student Entrepreneurship in China, or CSEC. As part of CSEC, we will need 30 seminar leaders from U of T to present and discuss with local Chinese students all aspects of technology, business, and entrepreneurship. This experience will help you better understand the Chinese culture, expand your professional and personal network in China, and not to mention develop your own leadership skills.

Time: August 10-21th

Venue: Shenzhen, China (a city of over 15 million population, north of Hong Kong)

Participants: Chinese college students and you as seminar leaders!

As a seminar leader, you will design different courses for 3-5 hours in total length that fits into the following 3 categories. During Aug 10 to Aug 21, you will instruct the curriculum to dozens of Chinese students **IN ENGLISH**, with the help of student TAs from some of the most prestigious Chinese universities.

## **WHAT ARE THE THREE CATEGORIES?**

### **1. SCIENCE, TECHNOLOGY AND BUSINESS**

Innovation is the key to long-term growth. It happens when great idea meets great people. For example, if you are interested in green technology and wind power, you can get students in China thinking about how to go green while making money. If you want to talk about SNS and how it transforms people's lives, you are invited to do so.

### **2. FINANCE AND ECONOMICS**

Understanding and reflection is even more vital in this turmoil financial markets and tough times. There is no restriction on time frame; you can go as back to the bubbles of Holland tulips to Japan estate to dot com to sub-prime mortgage and eventually, the credit crisis today. You may wish to discuss the pros and cons of a fixed Chinese Yuan versus a floating system. Welcome to explore a world of possibilities.

### 3. BUSINESS / CULTURAL EXCHANGE

This is designed to be a “catch-all” section. You think Jack Welch’s transformational leadership in GE is exciting? Or if oil crisis has been occupying your mind, welcome on board. 2009 will mark the first year of ACCEL and as our founding member, you get to shape who we are and what we stands for. Talk about anything you are passionate about and help to make a difference. We’d love to hear from you.

#### WHAT IS UTACCEL

What is UTACCEL? University of Toronto Association for Canada-China Exchange of Leadership is a non-profit, U of T recognized student club. Our goal is to foster interaction and communication between University of Toronto students and their peers in China; and to provide opportunities for both Chinese and Canadian students to present their entrepreneurial perspectives.
